2021 – 2024

CERTIFICATIONS

- **FULL STACK WEB DEVELOPMENT**
Gurucool – 2023

EXPERIENCE

Web developer internship

Marxray | July 2023 – Dec 2023

PROJECTS

Full Stack projects:

- **Weather application:** A user-friendly weather application that leverages APIs to provide real-time weather updates.
- **News Website:** A dynamic news website featuring categorized news content retrieved through APIs.
- **Calculator:** An interactive calculator built using React.js for a modern and responsive user experience.
- **Facebook login page and profile page (clone):** A replication of the Facebook login page and user profile interface using HTML and CSS.
- **A college web page:** Engaging college home page designed with HTML and CSS.
- **Password authenticator:** Enhances security by verifying password criteria.
- **Fully functioning Login authentication:** An integrated login authentication system that validates user login requests by cross-referencing with the database, ensuring a secure and streamlined user login process.

WordPress projects:

- **Digital marketing agency:** A comprehensive service-based website featuring a user-friendly homepage, service offerings, blog section, and easy contact access.
- **E-commerce website:** An e-commerce platform with user-friendly features, including wish lists, a shopping cart, and secure payment processing through a gateway.
