WORK EXPERIENCE

Full Stack Developer Intern — Marxray (Dubai - Remote)   Jan 2024 - Present

– Contributing to the development of robust web applications using the React.js, Node.js, Express.js and PostgreSQL, writing clean and efficient code, building reusable components, implementing responsive user interfaces, optimizing for speed and scalability, and staying updated with emerging technologies.

WordPress Developer Intern   July 2023 - Dec 2023

– Assisting senior designers in creating visually appealing and user-friendly WordPress themes, developing custom mock ups and prototypes, integrating design assets, customizing themes and plugins, conducting usability testing, and staying updated on WordPress trends and best practices.

Digital Marketing Intern — Upkeepcity (Aus - Remote)   May 2023 - Nov 2023

– Contributing to SEO efforts including keyword research, on-page optimization, back linking, and managing blogs, while also supporting social media campaigns through content creation, calendar management, distribution, and analytics analysis.

PROJECTS

LifeSaver : Centralised Blood Donation Management System   Live Link - GitHub Link

Developed a centralized platform to streamline blood donation and distribution processes. Utilized tools and libraries: JavaScript for dynamic user interfaces, PostgreSQL for data storage, Node.js for server-side logic, and Express.js for back end routing, ensuring a seamless user experience. Enabled improved transparency and efficiency in matching donors with recipients.

TravelMaster : Microservices-Based Booking Platform (In Development)   GitHub Link

Creating a dynamic, responsive front end using React. Enabled users to search and book flights, hotels, and activities via real-time API integration. Integrated Google Analytics (GA4) in web applications (React+Javascript) for capturing major ecommerce events along with creating of custom Tags and triggers for GTM for Single Page Applications. Implemented secure payment processing and user authentication. Ensured scalability with separate databases for each service. Employed CI/CD pipelines for seamless deployment and updates.

EDUCATION

2021 - 2024	Bachelor's of Computer Application	(GPA: 8.0/10)
2020 - 2021	Class 12th CBSE Board	(Percentage: 82)
2018 - 2019	Class 10th CBSE Board	(Percentage: 80)
